Table current as of 5/13/2022

Baricitinib is authorized for use under an Emergency Use Authorization (EUA) for treatment of coronavirus disease 2019 (COVID-19) in hospitalized pediatric patients 2 to less than 18 years of age requiring supplemental oxygen, non-invasive or invasive mechanical ventilation, or extracorporeal membrane oxygenation (ECMO).

- Baricitinib has not been approved, but has been authorized for emergency use by the FDA for the treatment of coronavirus disease 2019 (COVID-19) in hospitalized pediatric patients 2 to less than 18 years of age requiring supplemental oxygen, non-invasive or invasive mechanical ventilation, or extracorporeal membrane oxygenation (ECMO).
- Baricitinib is authorized under an Emergency Use Authorization (EUA) only for the duration of the declaration that circumstances exist justifying the authorization of the emergency use of baricitinib under Section 564(b)(1) of the Act, 21 U.S.C. § 360bbb-3(b)(1), unless the declaration is terminated or authorization revoked sooner.
- For information on the authorized use of baricitinib and mandatory requirements under the EUA, please review the FDA Letter of Authorization, Fact Sheet for Healthcare Providers, Fact Sheet for Patients, Parents and Caregivers (English) and Fact Sheet for Patients, Parents and Caregivers (Spanish).
